NameRez-External - Bug #23744

Deployment

May 10, 2024 11:18 AM - Mayur Dama

Status:	New		**Start date:**	May 10, 2024
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Feature		**Estimated time:**	0:00 hour
Target version:	1.0		**Spent time:**	0:00 hour

Description

Deployment:

- Deploy project on GCP environment
- Should be able to share project with others without giving them the code
- AMI, Project build, etc [Need to check]
- Not implemented for the 1st release. Need to implement licensing... Once an expired project should not be working. [Need to check]
    - Agreed on need for Licensing, though for the 1st release to show demos on I'm not sure we need it just yet. Plan for it, but let's not build it right now.
