Verified on staging web app, now on the Balance sheet break down page followed the below process & the data is exporting properly based on thr applied filters.

1. First applied the filter of Stock Active Toggle as Inactive
2. Clicked on the Export button to Export the data based on the applied filter.
3. when viewed the file then it displayed the incorrect data ie. 34 rows where as in the web app its displaying data of 1 row. (Here based on the applied filter data should be displayed in Exported file) - **Done, marking it as closed**
